

dehydrator/dryer attachment for grow tent

current air in

air out

forced air

outlet

bug filter

air in \approx air out (some leaks)

either on inside or outside
diagram

proposal

need to determine what excess the greens should be used for
Idea: turn it into ~~dried~~ flour for baking

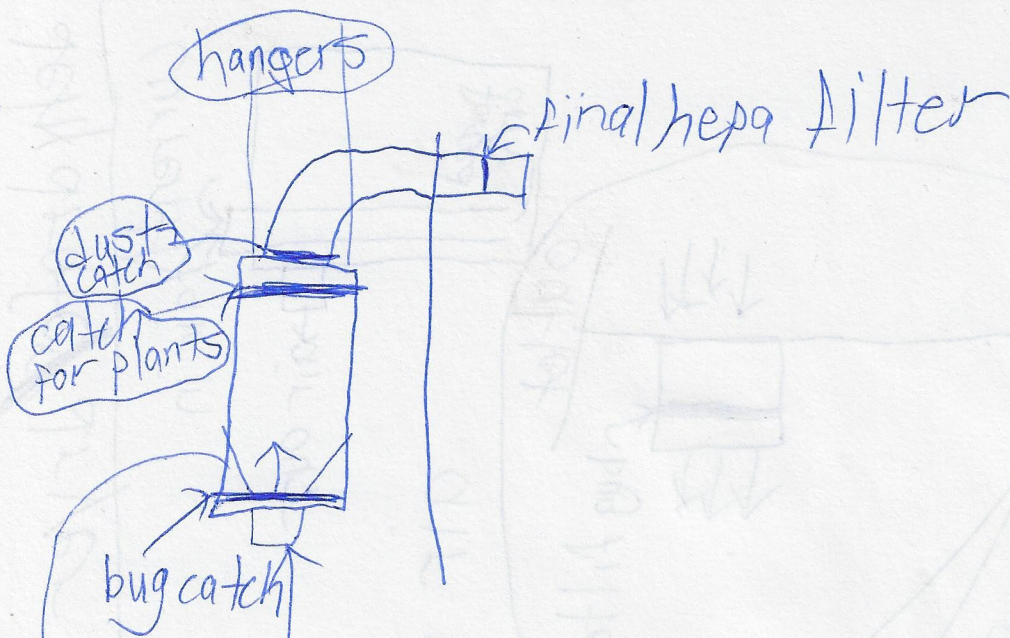

need: to determine flavor/texture

of said ~~flour~~ flour

need: easy method of ~~drying~~ drying and producing the greens \rightarrow

slightly conical
so plants get
blown upwards. then repeatedly get
blown

• wanted things

~~any more~~

- aquaponic system

- second tent for dry clothes
or ~~anything~~ anything else

- small tent for a single marijuana
plant
